- ✓ Establishes performance requirements and personal development targets.
- ✓ Regularly monitors performance and provides coaching for performance improvement and development.
- ✓ Takes disciplinary action, up to but not including termination, to address performance deficiencies, in accordance with the District's personnel rules and policies.
- ✓ Provides leadership and works with department staff to develop and retain highly competent, customer service-oriented staff through selection, compensation, training and day-to-day management practices which support the District's missions and values.
- ✓ Integrates and directs the efforts and results of staff engaged in the maintenance and repair of the District's public works, water distribution, sewer and wastewater collection system infrastructure.
- ✓ Represents the employer as a member of the Bargaining Committee for the Collective Agreement and of the Labour Management committee.
- ✓ Coordinate, review and approve the work for municipal construction projects including any contractors so engaged and solicits advice from consulting engineers for the resolution of difficult problems.
- ✓ Recommends contract awards, negotiates contract provisions and coordinates, reviews and approves contractor's performance.

- ✓ Develops specifications and bid documents for a variety of public works and public utilities-related designs, construction and maintenance projects.
- ✓ Represents the District in negotiations with other agencies, utilities, groups and individuals on a wide variety of issues pertaining to public works and utilities.
- ✓ Develops, implements and monitors long-term plans, goals and objectives focused on achieving the District's mission and Council priorities.
- ✓ Monitors developments related to public works and utilities matters, evaluates their impact on District operations, and implements policy and procedure improvements.
- ✓ Directs the development of and monitors performance against the annual department budget.
- ✓ Prepares departmental budget for Council approval. Monitors, once approved, working co-dependently with the Finance department.
- ✓ Determines the availability of grants, subsidies and other forms of funding and ensures eligibility, scheduling/timing and implementation requirements are fulfilled.
- ✓ Assists in the preparation of new District bylaws and the revision of existing bylaws.
- ✓ Advises the District Council, CAO, citizen groups, individuals, contractors and others on departmental issues.
- ✓ Attends council and council committee meetings as a technical resource.
- ✓ Ensures conformance with all Federal and Provincial legislation and regulations.
- ✓ Administers the occupational health and safety program to ensure compliance with legislative requirements of the municipality and workers' compensation legislation and regulations.
- ✓ Reviews and approves engineering drawings for all department construction works.
- ✓ Reviews and approves engineering drawings for subdivision developments and ensures compliance.
- ✓ Responsible for subdivision site inspections.
- ✓ Reviews and advised on development plans and permits for work in District rights-of-way.
- ✓ Undertakes related duties and special projects as required.

NOTE: The duties and responsibilities listed above are not set forth for the purpose of limiting the assignment of work and are not to be construed as a complete list of duties normally or temporarily to be performed.

The incumbent may encounter information associated with the privacy of individuals or that is sensitive in nature; accordingly, confidentiality must be maintained at all times.

**REQUIREMENTS:**

- ✓ Secondary school graduation.
- ✓ Minimum of five (5) years experience in local government with at least three (3) years previous management experience in a public works environment.
- ✓ Computer literacy with word processing, spreadsheets and databases.
- ✓ *Preferably*, holding the following valid certificates from the Environmental Operators Certification Program: Municipal Wastewater Treatment (Level I); Wastewater Collection (Level II); Water Distribution (Level II) and Water Treatment (Level II).
